

D2 CHECK

Description:

D2 is a degreaser for oil residues and waxes and a primer for coating or sealants. With its unique formula, cleaning will allow better adhesion of the coating molecules, ensuring more durable protection. D2 evaporates more slowly than classic IPA, making vehicle preparation for all detailing tasks much easier and more efficient. The product also allows you to correct the streaks created during the first hour of application of the sealant or coating and rework it.

Directions for use:

spray D2 2-3 times on a microfibre cloth and use it on the surface. The product can be diluted from 1:3 to 1:5 (1 part of product and 3 or 5 parts of water) as post polishing check. Avoid spraying directly onto the surface.

Consumption:

150 ml/car

Technical Features:

Appearance and colour: light blue liquid

Odour: characteristic

pH: 9,0 ± 0,5

Flash point: >23°C

Relative density: 0,94 g/cm³

Solubility in water: soluble

Solubility in oil: not soluble

Storage:

Unopened and stored at room temperature away from direct sunlight.

Packaging:
