

## 100% DEGREASING

### **Description:**

100% Degreasing is a fast and effective multipurpose degreaser with an antistatic effect, when there is the need for a vigorous cleaning of the engine compartment, rims and tyres, flies, rubber mats and plastic surfaces. Its unique formula without sodium hydroxide, EDTA/NTA and phosphorus has a strong and yet gentle degreasing action on precious materials, also thanks to the latest generation surfactants of vegetable origin. 100% Degreasing has a strong chelating effect to thoroughly clean rims and metal deposits, plus a colloidal formula consisting of molecules with a hydrophobic head and hydrophilic tail in order to promote penetration and better remove oil and fat without using aggressive substances and preserving the original finish of the surface.

### **Directions for use:**

**Unscheduled cleaning of engine and rims/tyres:** spray the product on cold surfaces and leave for a couple of minutes. Then use a brush with nylon bristles to brush the treated areas and rinse, or rinse only with high pressure water for non-stubborn dirt or when touchless cleaning is required.

**Cleaning internal hard surfaces:** remove dust and dirt. Evenly apply the product directly on the surface, use a paintbrush with soft bristles and if necessary help yourself with a brush to remove stubborn dirt. Wipe a soft damp microfibre cloth to remove the product.

**Routine cleaning of other parts:** dilute the product 1:1 by spraying directly onto the surface and then wiping with a microfibre cloth, first a damp one and then a dry one.

**Precautions:** do not apply the product on hot surfaces, on particularly delicate surfaces we always recommend testing it on a hidden part before use.

### **Consumption:**

100 ml/machine indoors

150 ml/machine outdoors

### **Technical Features:**

Appearance and colour: purple liquid

Odour: characteristic

pH: 10,5 ± 0,5

Flash point: >100°C

Relative density: 1,01 g/cm<sup>3</sup>

Solubility in water: soluble

Solubility in oil: non soluble

### **Storage:**

Unopened and stored at room temperature away from direct sunlight.

### **Packaging:**
