

## SP1 PREWASH

### Description:

SP1 is a foam detergent that contains the highest-quality formula we have ever developed, being the world's first enzyme-based prewash for detailers with a deep cleansing action (patent no. 14730984.3). SP1 removes even the most stubborn organic dirt and, thanks to the enzymes that can act several times on the same molecules - dirt substratum (e.g. a layer of soil), a small amount of SP1 guarantees an excellent washing action and thorough cleaning\*, making the protective layers applied previously, or still to be applied, last longer.

Its unique formula easily removes traffic film, insects, oil and fat without mechanical action and without damaging coated surfaces. Despite having pH 11,50 this product is safe on delicate car parts due to the absence of sodium hydroxide and to the use of plant-derived surfactants, which reduce "stress cracking" on plastic materials. Its formula is phosphorus, EDTA and NTA free. \*Compared to the enzyme-free line.

### Directions for use:

Dilute 20 ml of product in 1 litre of water (1:50 - dilution can be 1:100 in case of frequent washing), spray over the entire car, wait for 1-3 minutes and rinse thoroughly at high pressure. The product can also be used with a foaming gun, dilution from 1:3 to 1:9 for extraordinary cleaning or pre-diluted up to 1:15 for frequent washing. For extraordinary cleaning or for removing gnats/floorboard: dilute 40 ml of product in 1 litre of water (1:25). For rims/tyres: dilute from 70 up to 200 ml of the product in 1 litre of water (1:5-1:15).

### Consumption:

50 ml/car

### Warnings:

Do not apply the product on hot surfaces and do not allow it to dry.

To handle the product follow the precautionary advice on the safety data sheet.

### Technical Features:

Appearance and colour: red liquid

Odour: characteristic

pH: 11,5 ± 0,5

Flash point: >100 °C

Relative density: 1,11 g/cm<sup>3</sup>

Solubility in water: soluble

Solubility in oil: not soluble

### Storage:

Unopened and stored at room temperature away from direct sunlight.

### Packaging:

PACKAGING	BOX	ITEM CODE
100 ml	6 PCS	79279
1000 ml	4 PCS	79280
5 L	-	79281
